Office of Beyond School Time

Through the coordinated efforts of the WPS Office of Beyond School Time, we will continue to provide support/programs for students and families during the closure of our schools. Each week we will post a list of upcoming new videos that you can access through [Warehamps.org](http://Warehamps.org). On our website under Quick Links, click on Wareham on Demand. This will take you to Wareham Community Television, [Eduvision](http://Eduvision). On the channel window you can click on the Beyond School Time link.

Each week there will be new programs that may include: play groups, story telling, yoga, cooking, arts, gaming, science explorers, hiking, foreign language, etc. There will be programs for all ages as well as also be programming specific to parents/guardians. These are enrichment programs that we hope you will enjoy with your family.

The CARE site coordinators at Minot, Middle and Decas and the SAIL coordinator at the high school have been in contact with the families to check in on any needs at this time, as has the staff from CFCE, PCHP, and Grandparent's Group programs. Please let us know if there are specific topics you may like to see through virtual program offerings, as well as other support you may need. In the meantime, please check out the first video, and learn how to make scones with Mrs. Wynne! We hope that your family stays healthy and safe and that these videos bring you joy and relaxation.

Sincerely,  
Jane and Maureen
