

# DESE and WGBH Partnership for Educational Resources

Today we're highlighting some social-emotional learning resources to help you support students, and to maybe inspire project ideas. We have something for all age levels, so please scroll through to find resources appropriate for your students. Some of these are student-facing, and others are more professional development, intended for teachers.

In the coming week, we're launching a new series of webinars on using our interactive lessons. This series will dive deeper into using the lessons, and will be subject- and grade brand-focused. The first one, on April 30, will focus on middle school science. See the registration info. below.

Next week we'll also change this newsletter from three times a week to two times, coming on Wednesdays and Fridays. Please send us any thoughts about content you would like to see featured: [education@wgbh.org](mailto:education@wgbh.org).

## Social Emotional Learning

**Just-in-Time Webinars: Register Now**

**Educational Broadcast Jump Start**

Get a preview of what we've got planned for our daily blocks of educational broadcast programming on WGBH The World channel, for students with limited or no internet access, or to augment online learning. **This session will preview content for May 4-8**, show accompanying digital learning resources, and give you tips for extending learning if you assign or recommend the programming to students.

**PBS KIDS Virtual Professional Learning Series**

Teaching with Molly of Denali

### Integrating Technology with Molly

Apr. 30 @ 7PM EDT

### Integrating Technology with Molly

The final webinar in the series focuses on combining informational text and technology. Molly of Denali models the various ways that children can use informational texts in their daily lives. This webinar considers the important role real-world tech use plays in our student's lives, and their understanding and engagement with informational text.

### PBS Kids Read Alongs

Every week, celebrities and PBS KIDS authors are reading aloud their favorite books. The next installment is **TODAY at Noon!** Get more information at [PBS Parents](#).

The graphic features a green background with a blue banner at the top left containing the PBS KIDS logo and the text "Read-Along". Below this, it says "Join Martin Kratt for a reading of 'Wild in Africa!'". The date and time are listed as "Friday, April 24 at 12:00 PM ET", with the Facebook URL "Facebook.com/PBSKIDS" below. A "WILD KRATTS" logo is also present. On the right side, there is a cartoon illustration of Martin Kratt wearing a blue and black outfit with a large blue circular element on his chest.
