

## DESE and WGBH Partnership for Educational Resources

### Overview Materials for Weeks of June 1 and 8

Below are links to overview materials for the special World Channel Educational Broadcast blocks during the weeks of June 1 and 8. These blocks of programming are provided as a resource for students in grades 6-12 with little or no internet access, and can also be used to augment digital materials being used for at-home learning.

As announced previously, the webinar overviews are no longer live, but are now pre-recorded to watch at your convenience. You can access presentation slides, resource documents, and overview recordings for in this [Google folder](#).

Simply look for the sub-folder dated for the week you are interested in. We think the resource document is particularly helpful because it highlights the curriculum topics (in red) and provides a variety of links to useful resources.

These are the last content overviews for the school year. The Educational Broadcast block on the World Channel will continue at least through summer 2020. You can find the schedule and links to related resources on the broadcast section of our [Distance Learning Center](#).

If you have a question that is not answered by the Resource Document, feel free to send it to [education@wgbh.org](mailto:education@wgbh.org).
