

Good afternoon,

I have been notified that a Wareham High School staff member has tested positive for COVID-19.

All who have had close contact with the individual have been notified and are self-quarantining. The Board of Health has also been notified.

We will follow all cleaning and sanitizing protocols put into place as our students and staff's safety is our priority.

It is vital that all wear masks, frequently wash hands, and practice social distancing as your health and well-being are of the utmost importance.

Thank you for your cooperation.

Sincerely,

Dr. Kimberly B. Shaver-Hood  
Superintendent
