

Good afternoon,

I learned today that a Wareham Middle School student tested positive for COVID-19.

Based on the information I received, there were no close contacts during the school day. Therefore, there is no need for contact tracing by the Public Health Nurse.

To maintain everyone's safety, please be mindful of any symptoms (fever, cough, body aches, etc.) that your child may be exhibiting. If your child is not feeling well, please keep them home and contact your physician.

We continue to follow all local Board of Health, and CDC regulations as our student's and staff's health and safety remain our top priority.

Sincerely,

Dr. Kimberly B. Shaver-Hood
