In an effort to maintain the health and safety of all students, staff and community members, the nurses of the Wareham Public School would like parents and guardians to be aware of changes they may see in the day to day operations of the school Health Office.

Our number one focus is caring for our students and maintaining a healthy school environment. There will be changes in the way the health office is run due to recommendations and mandates from the CDC and DESE.

All students and staff will be required to wear a face covering while in the Health Office. Students will be treated one at a time in the Health Office and cleaning protocols will be in place following each visit.

Frequent handwashing will be our number one defense in controlling the spread for germs.

Should your child need to be dismissed from school for an illness it is **required** that the student be picked up by the parent, guardian or emergency contact within 30 minutes of being notified by the school. If the student is not dismissed in this time frame there will be protocols in place which may include transporting the student to the local Emergency Room for evaluation.

Please monitor your child for any symptoms they may have prior to attending school each day. The CDC does provide a list of symptoms that should be monitored to manage your family health. Fever, sore throat, vomiting, diarrhea, frequent cough or difficulty breathing are a few of the symptoms listed. A full list of symptoms can be found on the CDC website. We ask that if your child has a temperature greater than 99.6 that they do not attend school that day.

If there is a positive case of Covid-19 in a school building, we will follow mandates from the local Board of Health, with guidance from DESE.

Please feel free to contact the nurse in your child's building for further assistance.
