

March 20, 2020

Dear Wareham Families,

I am very proud of our Wareham staff and how they have risen to meet the needs of our students.

Our cafeteria staff has tirelessly prepared numerous breakfasts and lunches. Some of our bus drivers have helped by bringing meals to the designated distribution sites. Custodians are thoroughly cleaning every inch in our buildings, so the buildings will be ready for your child's return. Our secretaries are answering questions and a valued resource for all.

Beginning Tuesday, our students will begin our educational enhancement program. Our faculty during the past several weeks have been developing plans as we continue to educate our students during school closure. Not only have they developed plans, but they have also found and created a variety of resources. Our para-professionals are ready and will be offering support and encouragement to our students. All are looking forward to connecting with your children as we miss seeing them.

A special thanks go to our administrators as they have coordinated with their families and their staff.

Please have your child keep an eye out for communication coming from the schools. We also will have resources listed on the WPS website beginning Tuesday, March 24, 2020.

If you have any questions or concerns, please reach out as we are here to support your child during this challenging new learning adventure.

Thank you for your cooperation.

Stay healthy and safe.

Sincerely,

Dr. Kimberly B. Shaver-Hood
